

Fiche de répertoriatisation agro-homéo

1:							4:						
2:							5:						
3:							6:						
les remèdes							les remèdes						
1	2	3	4	5	6		1	2	3	4	5	6	
Absinthium							Carbolicum acidum						
Aceticum acidum							Carcinosinum						
Aconitum Napellus							Causticum						
Allium cepa							Chamomilla						
Allium Sativa							Chara intermedia						
Alumen							Chrysoperia carnea						
Alumina							Citricum acidum						
Amblysius							Cobalt						
Ammonium carbonicum							Coccinella septempunctata						
Ammonium muriaticum							Coccus cacti						
Ammonium phosphoricum							Cuprum metallicum						
Ammonium preparation							Cuprum sulfuricum						
Ammonium sulfuricum							Dolichos pruriens						
Aphidius							Dulcamara						
Aranea diadema							Encarsia formosa						
Arnica montana							Equisetum hyemale						
Arsenicum album							Ferrum muriaticum						
Athyrium filix femina							Ferrum phosphoricum						
Aurum metallicum							Ferrum préparation						
Aurum chloratum natronatum							Ferrum sulfuricum						
Bacillus thuringiensis							Foeniculum vulgare						
Belladonna							Gastien aqua						
Berberis vulgaris							Gelsemium						
Bombyx processionea							Gomme laque						
Borax							Helix tosta						
Boron							Hepar sulfuris calcareum						
Bovista							Hyposmocoma molluscivora						
Bufo rana							Hyssopus officinalis						
Cadmium meta							Influenzinum						
Calcarea carbonica							Juglans nigra						
Calcarea fluorica							Kalium bichromicum						
Calcarea phosphorica							Kalium (potassium) préparation						
Calcarea preparation							Kalium carbonicum						
Calcarea silicata							Kalium iodatum						
Calcarea sulfurica							Kalium muriaticum						
Calendula							Kalium nitricum						
Camphora							Kalium oxalicum						
Cantharis							Kalium permanganicum						
Carbo vegetabilis							Kalium phosphoricum
